linkedin.com/in/arshat-ali | arshat-ali.runs-on.dev

Thiruvarur, Tamil Nadu, India

PROFESSIONAL SUMMARY

Odoo developer with 2.5 years of experience including an internship. Experience in module upgrades, integrations and reporting across e-commerce, manufacturing and HR. Independently developed 16 ModuleDex add-ons.

TECHNICAL SKILLS

Development: Python, PostgreSQL/SQL, JavaScript, XML/QWeb, OWL, Git

Odoo & APIs: 11, 16–20; ORM, access rights, record rules, migration, testing; REST/GraphQL, webhooks, OAuth2

PROFESSIONAL EXPERIENCE

Engineer | Tefugen Technologies Private Limited

Tiruchirappalli, India | Dec 2025 - Present

- Migrated quality-assurance, customer-support, SMS and GST reporting modules for Bestomart's Odoo 11-to-19 upgrade; extended its existing Shopify connector.
- Built GEECO stock-correction tooling: updated quantities for 1,442 products and reset stock for a 584-product list, with a UI workflow.
- Built WhatsApp Cloud API template management, approval-status sync and message logs; contributed to Google Merchant Center OAuth2 integration.
- Implemented assigned GEECO procurement, bill-of-materials and reporting changes, and TREAT attendance, overtime and shift-allocation tasks.

Technical Consultant Trainee | Otibro Techni Private Limited

Coimbatore, India | Jan 2025 - Nov 2025

- Migrated and customised Odoo 16-to-18 models, views and workflows; developed QWeb invoices, quotations and sales-order reports.

Odoo Developer Intern | Otibro Techni Private Limited

Chennai, India | Mar 2024 - Dec 2024

- Customised sales, inventory and finance modules and QWeb reports using Python and PostgreSQL.

MODULEDEX | INDEPENDENT ODOO PROJECTS

16 add-ons published on the Odoo Apps Store (Odoo 17 to 20). Selected projects:

Odoo Apps Store: ModuleDex

- **BigCommerce Connector.** Built product/stock sync, order imports, refund-to-credit-note handling, webhook processing and rate-limit retries.
- **AI Migrator and Upgrade Scanner.** Built a PostgreSQL migration job queue with retries and a Python AST/XML scanner for deprecated Odoo APIs.
- **Access and diagnostics.** Built inherited-group permission analysis and 41 performance checks. Added automated test suites across six portfolio add-ons.
